

Frequently Asked Questions

Faith and American Politics Facilitator Training

How long are the *Faith and American Politics* Course DVD video clips?
They are about 25 minutes in length each, and the last one is about 35 minutes.

Do facilitators participate in the dyads?

Yes and No. If you would like to participate and take on that additional commitment then that is very appropriate. It may be necessary to have the facilitator participate if there are an odd number of participants. If there is an even number of participants, the facilitators do not need to participate in the dyads unless they would like to do so.

Do you have to use the Triad Discussion questions provided in the Facilitator Guide?

No, you as facilitators can generate new questions for participants or even allow them to think of a question they would like to discuss.
